

The logo features the word "CAPITAL" in a white, serif, all-caps font, enclosed within a white rectangular border. The background of the entire page is a close-up photograph of two industrial-style lamp shades with a weathered, metallic texture. One shade is on the left, and another is on the right, both hanging from thin metal rods. The lighting is soft, highlighting the texture of the shades.

ARTFULLY CRAFTED WITH
EVERYDAY ELEGANCE

Thoughtful design and attention to detail are at the heart of every product we produce. For over 29 years, we have poured our passion into every fixture, all to help you create a story for your home. Whether you're a maximalist, a minimalist, or somewhere in the middle, we strive to make lights which create joy, invite imagination and bring out the personality of your space.

INSPIRING IDEAS

Inspiration is showcased throughout this book, so you can gather ideas for upcoming projects, discover trends and dig into the details about some of our featured fixtures.

SEARCH FOR SPECIFICS

Easily browse by Collection to find coordinating pieces in the same finish and with intentionally designed features and elements throughout, or search by fixture type in our Categories section and browse visually for a look you love.

COOK UP A NEW LOOK

Discover creative ways to spice up and light up your kitchen and dining areas with chandeliers, pendants, island fixtures, sconces and foyer lights.

MIX IT UP. MAKE NEW RULES.

Try an island fixture above a dining table or a pair of chandeliers above the kitchen island, switching up styles to suit your taste.

A pendant cluster is the magic ingredient that adds pop to a cozy dining nook.

ELEVATE YOUR ENTRYWAY

The right fixture says "Welcome Home" every time you walk in. It sets the tone for the rest of your home and is one of the first things guests see.

A grand, tiered chandelier makes a statement at the entrance. Pendants are perfect for a multipurpose mudroom, while versatile foyer fixtures fit in almost anywhere.

SUITE SPOT

Hit pause on the hectic pace of life by creating a calming bedroom oasis. Free up space on your nightstands with a pair of pendant lights flanking the bed. Layer the look with fixtures, mirrors and accents that evoke vacation vibes.

KEEP IT COOL AND NEUTRAL

Variations of silver, nickel, zinc and signature finishes like Winter White are made for spaces that crave a little calm. Details such as pierced patterns, distressed textures, crackled glass and faceted crystals add intrigue to the cool, metallic trend.

NATURAL MATERIALS AND FINISHES BLEND EFFORTLESSLY

For a light fixture that makes a subtle statement, the answer is simple.

Earthy elements, such as rope, rattan, and woven grasses, are easy, effortless, and add an instant update to any space. Pairing these tactile, natural materials with smooth surfaces like glass, ceramic or metal add tailored texture and casual charm.

When the handcrafted techniques are combined with the natural imperfections of each material, a unique and unexpected look is created. You can make a statement as a singular use or group together for a bohemian style.

With organically inspired materials, going back-to-the-basics is definitely not boring.

polished perfection

KEEP YOUR COOL WITH THESE REFLECTIVE METAL ACCENTS

The mirror-like appearance of Chrome and Polished Nickel blend seamlessly from style to style. Neutral by nature, these reflective finishes have a clean, fresh appearance.

Combining the sleek metal with glass and shades warm up the cool metallic tones, and create a comfortable and contemporary look.

Chrome continues to shine in new vanity designs, making the perfect match for cool metallic bathroom fixtures.

golden hour

ROOMS GLOW WITH THE WARM LUMINESCENCE OF GOLD AND BRASS

Lavish by nature, these warm hues command attention and make a big impact in any space. The transitional tones of this rich color can stand alone for a showstopping statement or add character in a collected grouping.

Golden colors also blend beautifully in any design style, adding an instant layer of luxury and sophistication. The eye-catching texture of the new Mystic Luster finish is reminiscent of old Hollywood glamour and the elegant softness of Winter Gold brings a romantic aesthetic. Aged Brass naturally lends itself to a mid-century modern look when applied to simple silhouettes.

Go for the gold with a knock-out piece.

TEXTURE THAT TELLS A STORY

Simple and stunning, these handcrafted pieces are a show stopper in any home. Clean-lined silhouettes blend beautifully with the unique, artisan finish, instantly creating a coastal or Parisian chic aesthetic.

The hand-painted Mystic Sand finish is intentionally distressed to create a whitewashed effect with grey undertones. The soft color is enhanced by the brushing technique which produces a visual and physical texture.

The versatility of the finish lends natural character to more modern silhouettes, like the Thea collection or accentuates coastal charm to more transitional styles, like the Beaufort or Kayla collections.

captivating cage lights

LINEAR SILHOUETTES CREATE CHARACTER AND PERSONALITY WITHOUT BLOCKING LIGHT

With coastal farmhouse and nautical inspiration, these fixtures give graphic punch with understated drama. The cage design creates an airy aesthetic that is juxtaposed by a shade or glass. This layering effect creates graphic interest and character while diffusing the light, resulting in a unique glow when lit.

Although this cascading cage pendant is one piece, it contains five individual pieces that can be arranged and adjusted to provide a personal, yet graphic punch. The exposed cords give visual layers and the suspended silhouettes have a whimsical appeal.

Make an eclectic aesthetic statement.

wooden wonders

REFINED RUSTIC

Whether it's a flair for farmhouse, a reverence for rustic or a craving for craftsmanship, one thing is for sure—wooden elements define the design.

The versatility of this natural material is as magical as it is multifunctional, spanning across an array of styles and sizes. Varying wood tones and grain patterns instantly add warmth and character.

This on-trend texture is as stunning as it is familiar, with traditional silhouettes blending beautifully with new materials.

The natural eucalyptus mirror has a hand trimmed and arranged pattern that creates a beautiful modern, yet organic layered design.

Make a sculptural statement.

see-through statement

CLEARLY COMPELLING, THESE
UNIQUE GLASS ACCENTS BRING
LIGHT WITH PERSONALITY

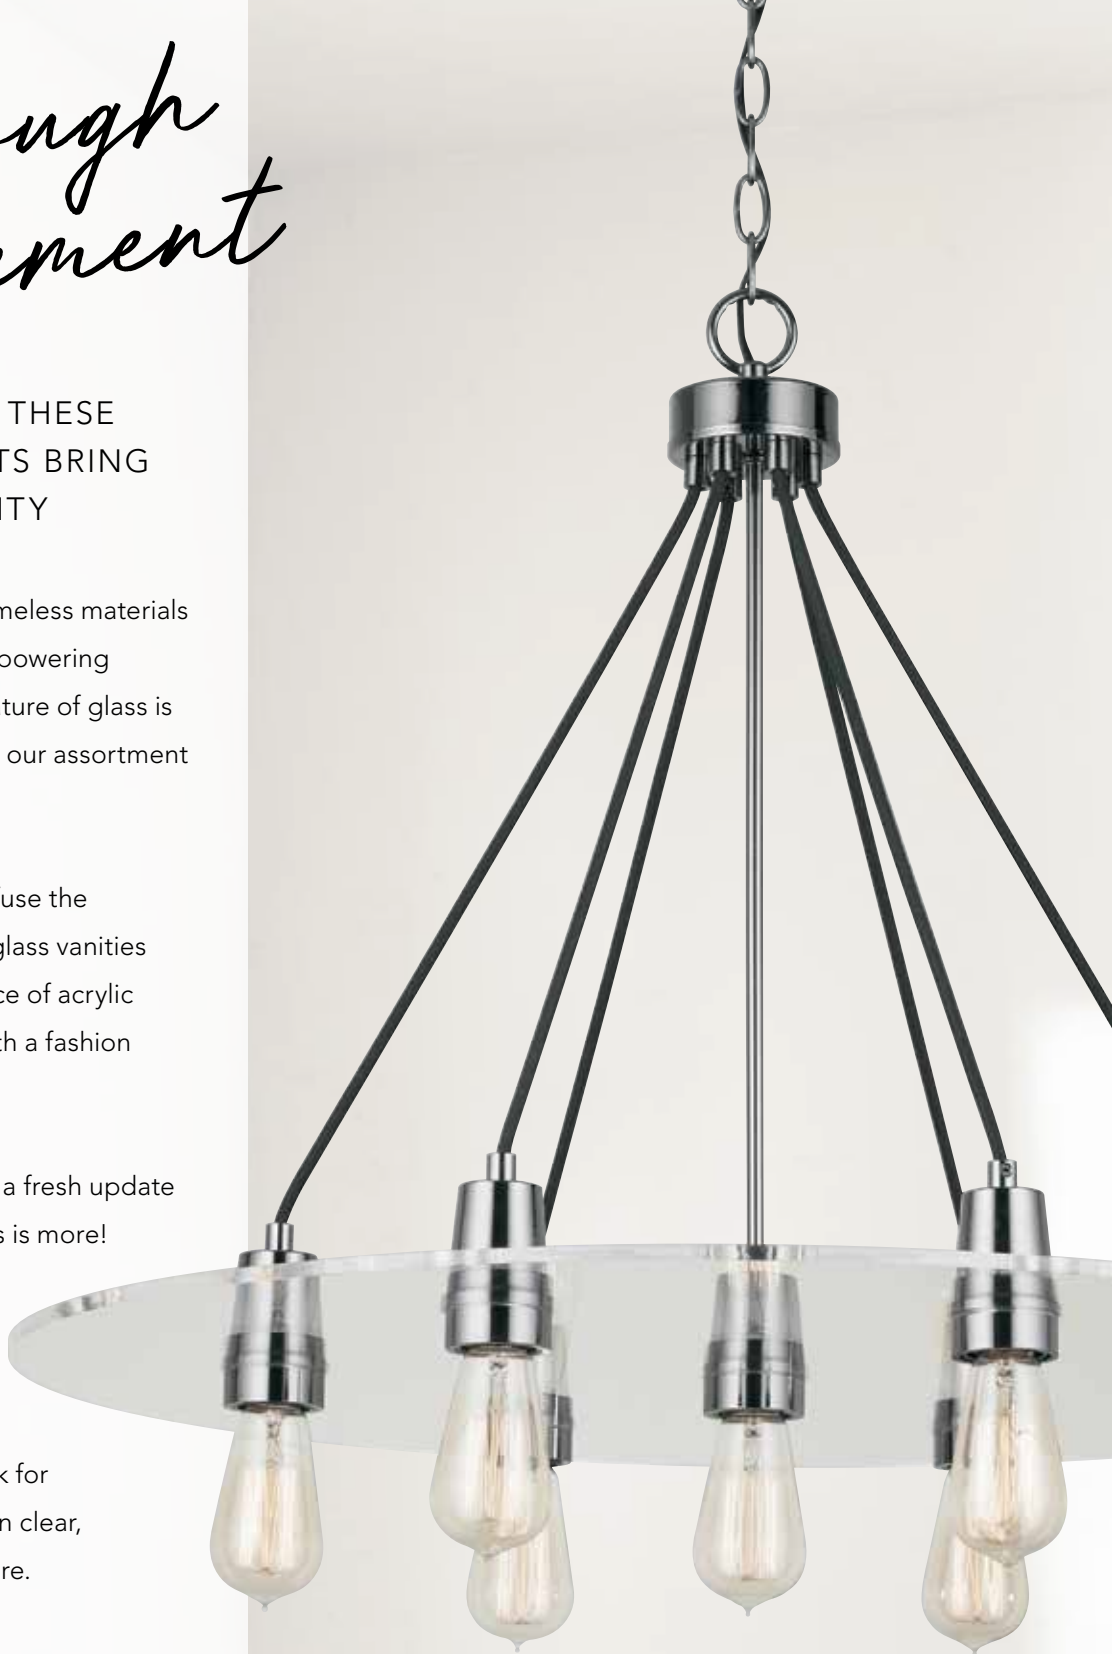

Contemporary style fused with timeless materials create eye-catching, but not overpowering designs. The clear, transparent nature of glass is interpreted in unique ways across our assortment of glass fixtures.

Textured and patterned glass diffuse the light and create a warm glow on glass vanities and pendants, while a simple piece of acrylic can create understated drama with a fashion forward twist.

The modern silhouettes make for a fresh update to the classic material. Clearly less is more!

Can't get enough glass fixtures?

Be sure to explore our vanity, pendant, foyer, and sconce categories in the back of the book for our full offering of glass fixtures, in clear, embossed, stone seeded and more.

deck the walls with designer mirrors

A beautifully designed mirror breathes new life into any wall. With the right mirror, you can transform a room, expand a space or complete a look. Hang a mirror opposite wall art or a window to enjoy twice the view. Create a feature wall with a grouping of picture frames and mirrors. Introduce a focal point with a statement mirror.

Every mirror we design can work as a standalone piece or be paired with one of our fixtures for a cohesively pulled-together look. Choose mirrors that complement our fixtures in shades of brass, black, gold, silver and more, or select from a range of natural, weathered and washed wood finishes. Discover new textures and fresh interpretations of favorite styles. Explore classic round and rectangle mirrors or switch it up with unconventional shapes that add an element of intrigue.

From marble to mercury glass, basketweave to braised details, our mirrors span a wide range of signature, handcrafted details. Explore over 50 beautiful reflections of style.

foyers + pendants

Pendant lights are perfect for task lighting with pizzazz. Try pendants in a row above a linear table or counter, or in a staggering cluster above a breakfast nook, kitchen island or bar. The right choice and arrangement of pendants can replace island fixtures and more formal chandeliers for a chic and casual ambience. You can also use pendant lights in the home office or study, or flanking a bed on either side, replacing desk and bedside lamps.

Foyer lights featuring airy cages in a range of styles and scales work especially well in the entryway. Our selection of pendants and foyers includes independent statement pieces in addition to lights that are part of a collection. Explore unique glass seeding, pierced and hammered metal, wood textures, shades, beaded styles, crystal adornments and more. And don't forget, they can often be converted to semi-flush ceiling fixtures too.

This section is organized visually to help with your browsing experience. Like shapes and features are grouped together. You can also browse by Collection starting on page 22.

INDEPENDENT *chandeliers*

The chandelier is the star center piece of the room where it hangs. Visually isolated from most other grounded elements of decor, it stands out and shines bright, bringing character and making a style statement through its design.

Our wide offering of collections are usually anchored on the chandeliers as a hallmark, building complementary fixtures around these core pieces. But occasionally we design a chandelier that stands independently. While these fixtures may have a coordinating piece, or work well with a wide variety of pieces, these independent chandeliers are those not gathered into a collection. For even more chandelier options, be sure to browse the collections at the front half of the book.

Chandeliers may be used for ambient, task or accent lighting depending on their scale, style and placement in a room. Try a chandelier as a foyer fixture in a grand, two-story entrance. A chandelier above the bed provides the feel of a getaway within your home. Outdoor chandeliers are excellent choices for bringing indoor elegance to a covered patio and can be found in the Rain or Shine Outdoor section on page 480.

islands

Anchor the heart of your home and the hub of activity with style and light.

While the term for these linear chandeliers implies that they are designed to go over a kitchen island, the elongated design also works well over dining room tables or other places where you might traditionally use a chandelier. Featuring different styles of shades, glass and exposed bulb sockets, with lamps facing up or down, these various and versatile fixtures can create a lot of light throughout a room or focused task-oriented lighting.

flush + semi-flush

Nestled close to the ceiling, flush and semi-flush fixtures are ideal for ambient lighting—the first step when introducing layered lighting. Perfect for any room with a low ceiling, these lights are the natural choice for closets, powder rooms and long hallways that could use more than one fixture.

We offer a wide selection of styles in ceiling fixtures, including lights with shades, crystals, glass, beads and other decorative features.

Many of our pendants and foyers may be used as semi-flush fixtures when you use only one link of chain between the canopy and the fixture's top loop. Certain fixtures come with a special dual-mount kit offering greater flexibility and versatility. Look for fixtures with the Dual Mount Option label to find lights that may be hung either as a Pendant/Foyer or mounted as a Semi-Flush.

sconces

Versatile fixtures that work in just about any setting, wall sconces pack a punch in function and style.

Flank a bath mirror with sconces at eye level for optimum lighting at the vanity. We intentionally design many of our sconces with powder rooms and bathrooms in mind, ensuring they are damp rated. Install sconces along a long hallway or stairway for illumination with impact. Is the ceiling too low for a fixture? Try a pair of wall sconces instead. Need task lighting by a counter or desk? A sconce is your answer. Lamps taking up too much space on your nightstands? Use sconces as bedside lights. Swing-arm sconces are especially perfect for reading nooks and bedsides.

If you need portable sconce options that are able to be hard-wired or plugged in, be sure to explore our Plug-In Optional sconces starting on page 418. We also offer ADA-compliant sconces that do not project more than four inches from the wall.

Glass, shade, crystals, beads—whatever your taste, we have sconces to match a variety of styles.

*portable sconces
with plug-in option*

Removable. Portable. Adjustable.

These wall sconces are designed with a plug-in option for ultimate versatility.

Portable sconces are perfect for short-term lighting needs in small spaces where you don't have the ability to wire a traditional sconce. They come with a 12" long cord cover in a coordinating finish, allowing them to be plugged into a wall outlet. Alternatively, simply remove the cord cover and install as a traditional sconce.

All of these fixtures include a dimmer switch, are Damp Rated for use in powder rooms and bathrooms, and have a swing arm, hinge arm or adjustable wing-nut for customizable positions in reading nooks, home offices or bedside.

These wall sconces are the ideal solution for renters, dorm dwellers and small spaces that could use a style boost.

vanity lights

A style statement for your bathroom vanity, these bath bar fixtures are designed with functionality in mind.

Choose from 2-light, 3-light and 4-light damp-rated fixtures that illuminate your bath mirror. Even a small powder room can get an instant boost of personality with a vanity light with interesting details.

By orienting the fixtures with the light cast up or down, you can find the best option that bathes your room in just the right amount of light. A variety of shade types and glass patterns including seeded, stone seeded, or embossed textured patterns diffuse the light while adding character and interest.

Most of our vanity fixtures are part of a collection, so you can easily create a cohesive master or guest suite with coordinating fixtures.

rain or shine series

When it comes to outdoor living, one thing is for sure—the love for curb appeal is real.

Whether it's a porch, patio or deck, the design of an outdoor space is an important part of a home's overall style. Fixtures must deliver visual appeal while standing up to the elements. Our Rain or Shine Outdoor Collection was created to bring you both.

RAIN or SHINE
DURABLE EXTERIOR LIGHTS

bring the inside out

Chic chandeliers set the stage for al fresco dining. Our new outdoor chandeliers borrow well-loved elements from interior fixtures while delivering year-round durability.

Geometric patterns and orb silhouettes make a striking statement and are sure to be the talk of the town.

*made for
bright stars
and dark skies*

Starlit skies are better enjoyed with outdoor fixtures that cast a soft, downward glow. Reduce light pollution by switching to fixtures designed to keep the night dark. Look for lights labeled with a star.

Please note that these designs require a GU10 Twist Lock bulb (not included).

tony | IN BLACK AND OILED BRONZE

We could not keep these popular pendant styles contained indoors!

Available now in weather-resistant Black and Oiled Bronze finishes, our damp-rated outdoor pendants are perfect for cozy sitting and dining areas in your covered porch, patio or deck.

Look familiar? These designs are borrowed from popular fixtures in our indoor collections Turner, Beaufort and Colby.

RLM *by capital lighting*

Our new collection of interchangeable fixtures are built with customization and durability in mind. Crafted out of aluminum, coated in a UV-inhibitor protective finish, the RLM barn-lighting-style fixtures are covered by our Rain or Shine series five-year warranty against rust and fading.

Creating wall lanterns or pendants with Capital Lighting's versatile RLM collection is quick, easy, and completely customizable for a build-your-own approach to creating the look your space needs.

1. START WITH YOUR SHADE

- Select a style: angle or warehouse
- Choose a size
- Pick a finish

2. ADD AN ARM

- Decide between a rod or gooseneck (backplate included) option
- Select your size
- Pick a finish

3. COMPLETE YOUR LOOK

- Choose a connector if needed: straight coupling, 90-degree elbow, or adjustable wing-nut swivel joint
- Pick a finish

what is rlm?

The term "RLM" (Reflective Luminaire Magnification) refers to the white shade interior that maximizes the reflection power of the light in these industrial style fixtures. Barn lights or warehouse shades are more mainstream terms often used to describe the RLM category of fixtures.

BUILD YOUR FIXTURE

For a more robust pendant look, use Rods, Coupling, and Wall/Ceiling Mount bracket as canopy. 120" of wire included with all shades.

Use a Swivel joint to control the direction of the light.

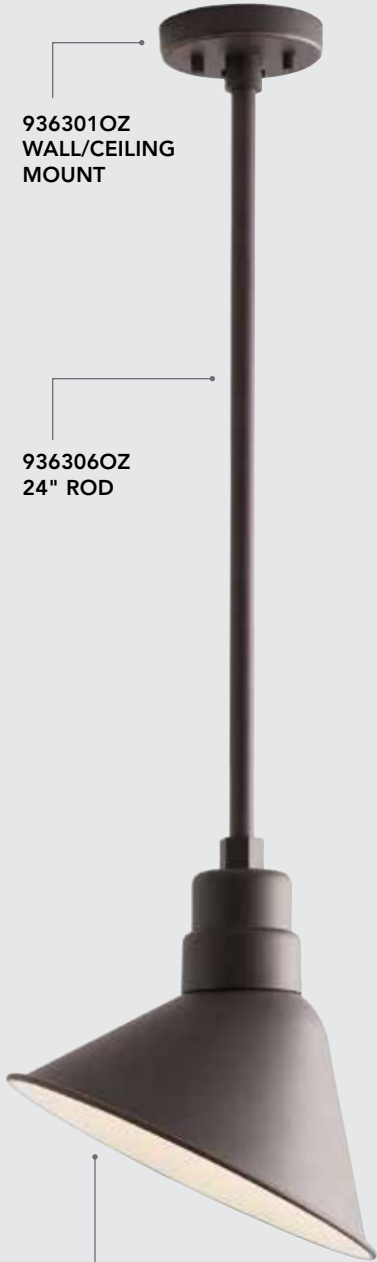

Use Elbows and Couplings to connect Rods.

Wall/Ceiling Mount bracket is included with all Gooseneck Arms.

damp vs. wet rated

- Damp Rated fixtures are recommended for covered areas that are not directly exposed to the elements. They are designed to withstand moderate exposure to moisture and condensation in areas like covered patios, porches and decks.
- Hanging Lanterns, Flush Mount and Semi-Flush fixtures are Damp Rated unless otherwise noted.
- Wet Rated fixtures are safe to use in areas that are directly exposed to the elements.
- Wall and Post Lanterns are Wet Rated unless otherwise noted.
